

Following are instructions for using the Tool:

Step 1: Select your agency role and answer questions below (this is important as some deadlines depend upon fiscal year and other agency-specific cycles).

Basic Filters Advanced

Apply Filter

Who

- MPO
- State DOT
- Tier I Transit Agency
- Tier II Transit Agency

Rule

- HSIP & Safety Performance Measures (PM1)
- Bridge & Pavement Performance Measures (PM2)
- System Performance Measures (PM3)
- Transit Asset Management
- Asset Management Plan
- State Freight Plan
- Planning

Functional Area (By Rule)

- Transportation Safety
- Bridge
- Pavement
- Highway Reliability
- Truck Freight Reliability
- CMAQ Traffic Congestion
- CMAQ On-Road Mobile

The Performance Management Timeline Tool is a web-based interactive tool for State DOTs, MPOs and transit agencies to visualize the requirements established by the federal rules that implement the MAP-21 and FAST Act – reflecting the milestones and deadlines for the rules that are final as of July, 2017. While several of the deadline items are set on a fixed date by the rules, others are dependent upon agency-specific cycles.

Please start with the **User Guide** to understand how to use the tool.

Next, please answer the following questions as they apply to your agency. Note that if you do not answer them, default values will be used to fill input-dependent deadlines.

Select your Agency Role

- MPO
- State DOT
- Tier I Transit Agency
- Tier II Transit Agency

When did/does your 2017 Fiscal year end?

When was your last LRTP approved?

How often is your LRTP updated? (in number of years)

When was your last STIP approved?

How often is your STIP updated? (in number of years)

Save User Settings Reset

Step 2: Use left-side panel to query results by agency type, rule, functional area, and timeframe. Use the search bar to limit results to items that contain your keyword (e.g. if you want to view items that address bridges you can type in “bridge”).

The screenshot displays a web application interface with a left-hand navigation panel and a main settings area on the right.

Left Panel Filters:

- Agency Type:** Asset Management Plan, State Freight Plan, Planning.
- Functional Area (By Rule):** Transportation Safety, Bridge (checked), Pavement, Highway Reliability, Truck Freight Reliability, CMAQ Traffic Congestion, CMAQ On-Road Mobile Source Emissions, Transit Asset Management, Transportation Asset Management, Freight Planning, Planning.
- Timeframe:** Next 10 Years (2017-2027), Next 4 Years (2017-2020), Next Calendar Year (2017-2018) (selected).
- Text Search:** A search box containing the word "bridge" and a "Reset" button.

Main Settings Area:

- 06/01/2014
- How often is your LRTP updated? (in number of years): 5
- When was your last STIP approved?: 06/01/2015
- How often is your STIP updated? (in number of years): 3
- Buttons: Save User Settings, Reset

Step 3 (Optional): Click Advanced tab and query results by *deadline type* or *reported where*. *Reported where* refers to how the item in question is reported—it can be a document (e.g. LRTP), a database platform (e.g. NTD), or an agency to coordinate with (e.g. MPO).

The screenshot shows the 'Advanced' filter panel on the left side of the application. The 'Deadline Type' section has 'Report Performance' checked. The 'Reported Where' dropdown menu is open, and 'LRTP' is highlighted with a yellow box. The main content area on the right contains introductory text, a 'User Guide' link, and a series of questions with input fields: 'When did/does your 2017 Fiscal year end?' (12/31/2017), 'When was your last LRTP approved?' (06/01/2014), 'How often is your LRTP updated?' (5), 'When was your last STIP approved?' (06/01/2015), and 'How often is your STIP updated?' (3). There are also radio buttons for 'Select your Agency Role' with 'State DOT' selected.

Step 4: Click “Apply Filter” in the left-side panel/

This screenshot shows the same interface as the previous one, but with the 'Apply Filter' button in the 'Basic Filters' section of the left panel highlighted with a yellow box. The 'Who' section has 'State DOT' checked. The 'Rule' section has several items checked, including 'HSIP & Safety Performance Measures (PM1)', 'Bridge & Pavement Performance Measures (PM2)', 'System Performance Measures (PM3)', 'Transit Asset Management', 'Asset Management Plan', 'State Freight Plan', and 'Planning'. The main content area on the right is identical to the previous screenshot, showing the same questions and input fields.

Step 5: Click “View Timeline” in the upper-right side of the screen. You can drag the timeline by clicking and holding. You can view detailed information of each deadline item by clicking it. You can also change the queries or reset the search on the left-side panel. Remember to click “apply filter” after you have modified your query.
